DevOps & Cloud: Docker, AWS, GitHub Actions, Jenkins, GitLab, Git

Work Experience

- Software Developer (Remote Internship)

IntellAxis AI, India | July 2025 – Present

- Led the development of the landing website and Gen AI products, contributing across UI/UX, backend, and DevOps.
- Worked on integrating GenAI capabilities and optimizing CI/CD pipelines for deployment automation.

- Full Stack Developer (Remote Part-Time Internship)

MyLegacyBox (Formerly Oiconomos), India | June 2023 – May 2025

- Led end-to-end development for MyLegacyBox App – a personal finance succession management platform.
- Conducted technical research for technology stack optimization and improved app architecture.

- Full Stack Developer (Remote Part-Time Internship)

SystemOnSilicon Corporation, USA | Jan 2023 – June 2023

- Developed UI/UX designs and full-stack features for AgriTech and HealthTech applications.
- Collaborated with cross-functional teams to enhance user experience and system performance.

Projects

- DiaFlow

A lightweight AI agent framework built on Google GenAI enabling tool-using agents with memory and structured JSON outputs. Published as an npm package with CI/CD automation and Zod validation. Focused on Gemini models as a simpler alternative to LangChain.
